Terms of Sale—Thirty days net cash to customers of approved credit or established accounts. New customers, cash with order, C.O.D. or satisfactory reference. To avoid delay in shipment cash should accompany unless satisfactory credit has been established.

Trade or Florist Packets—Contains liberal quantities in proportion with the price per ounce and are sent on all orders from florists unless otherwise specified.

Half ounce will be charged at the ounce rates.

Half pound at the pound price.

Morris & Snow’s Formula Mixtures are made by us in order to furnish the growers with a mixture of well balanced colors suitable for market purposes and devoid of any colors not popular on the market.

In field grown mixtures colors such as white and yellow are apt to predominate and for this reason we know you will be better satisfied with our Formula Mixture, which contains only those colors which through years of experience we have found most suitable for trade.

We give no warranty expressed or implied as to purity, description, quality, productiveness or any other matter of any seeds, bulbs or plants we send out, and we will not be in any way responsible for the crop. If purchaser does not accept the goods on these terms they are to be at once returned. We quote subject to immediate acceptance; stocks unsold, confirmation of orders, stenographic errors and omissions, delays and contingencies beyond our control.
California leads the world in flower seed production. Over 5000 acres are now devoted to the growing of flowers for seeds and this acreage is being greatly increased every year.

Morris and Snow Seed Co., located in Los Angeles, the center of the flower seed industry, is in a strategical position to be constantly watching and comparing the various strains and this gives us a great advantage over firms located elsewhere who can inspect the crops but once a year.

For over twenty years The Morris and Snow Seed Co. has specialized in flower seeds for the grower, florist and nurserymen and consequently every member of our organization must be trained in the selection of the strains and varieties with a view to their suitability for market purposes. Our customers are thus assured of always getting the best strains.

We are living in an age of specialization and all successful growers know specializing in the marketing of seeds is of the very first importance.

"PEDIGREED SEEDS"

for over 20 years.
A riot of countless shades ranging from the deepest maroon to the purest white; from the most brilliant scarlet to the lightest pink—intermingled with odd and undescribable shades—some with colored edges, spotted, ruffled, fringed. Flowers so large that both in shape and size they resemble cactus and decorative Dahlias—others in faithful reproduction of Camellias, Zinnias and even Azaleas in shape. Such is the new strain of Palaflor Ranunculus, which was the sensation of the Los Angeles market this season.

This strain was developed through the careful hybridizing and selecting by Mr. George Yokomizzo, a well known grower in Los Angeles. The cross being made between the Palestine and Florentine strains, hence the name “Palaflor.”

Both seeds and bulbs of this remarkable strain will be on sale solely by us during the 1931 season.

The above photograph will give you an idea as to the difference in size and doubleness of the blooms between “Palaflor” and the choicest strain of Ranunculus Asiaticus.

Novelties and Recent Introductions

**New Snapdragon (Antirrhinum)**

**Roman Gold**

An exceptionally early variety for forcing. Its color is a combination of pink, copper and yellow shades. We consider this snapdragon of as much value to the florist as Jennie Schneider. Pkt., 25c; Trade Pkt., $1.00; 3 Trade Pkts., $2.50.

**New Snapdragon (Antirrhinum)**

**Ceylon Court Yellow**

It is one of the most robust Snapdragon known with spikes 10 to 14 inches long of a beautiful canary yellow with closely set flowers. Very early for forcing. Trade Pkt., $1.50; 3 for $3.50.

**Asters, Giant Mammoth Peony Flowered**

A new Aster of excellent merit which is the result of several years work by Mr. Fred Howard of Los Angeles, who has devoted many years to the selection suitable for florists’ use. The flowers are of immense size, very double, borne on long, stout stems quite free from laterals. They are splendid shippers for they keep longer after cutting than any other Asters. This being the first year this Aster has been introduced we are only able to supply three colors, Swansdown—pure white, Maiden’s Blush—delicate flesh, Azure Fairy—clear blue, at the following prices: Pkt., 50c; Trade Pkt., $1.00; ¼ oz., $1.50; 1 oz., $5.00.

**Aster, Peerless Yellow**

It has been difficult to get a good yellow Aster. Messers John Bodger and Sons of El Monte, Calif., have been working constantly for several years and have at last developed one that is quite good. It can be described as American Branching habit, height about two feet, flowers of good size and form, petals slightly incurved, but no trace of quills as in the earlier forms of the yellow Aster. The color is a deep yellow when first opened and fades slightly as it ages. Pkt., 15c; Trade Pkt., 50c; ¼ oz., $1.25; 1 oz., $4.00.
Asters, Improved California Sunshine

The Sunshine Aster was introduced into the country a few years ago and became very popular owing to its daintiness. It had, however, one objection, the flower stems were too short and weak. After several years of special selection and hybridizing Messrs. John Bodger and Sons of El Monte, Calif., the largest aster growers in the world, have developed a strain which overcame this objection and is far superior to the old one. The above photograph speaks for itself. We offer the following colors: Flesh, Pink, Carmine, Lavender, Violet and Morris & Snows Florist Formula Mixture, at the following prices: Pkt., 15c; Trade Pkt., 25c; oz., 60c; 1 oz., $2.00.

Larkspur La France

La France is very floriferous, the large, well-formed, double flowers being well placed on the long stems to set off its attractions. It is vigorous growing, and is more resistant to mildew than the older stock flowered varieties. The flowers are of a beautiful salmon-pink. Last year this novelty was accepted on the Los Angeles market, which disposes of a large quantity of Larkspur to a critical trade. Pkt., 25c; Trade Pkt., 50c; 1/4 oz., 75c; oz., $2.00; 1 lb., $6.00; lb., $20.00.

Larkspur Los Angeles

Los Angeles was developed in response to the demand for a Larkspur of the same growing habit as La France, but with a richer color—something between La France and Lustrous Carmine. In Los Angeles there is the same rich salmon ground, overlaid with a brilliant rose. The type of growth is similar to La France, but the foliage of Los Angeles is much darker green, making the large double flowers stand out more prominently. Pkt., 25c; Trade Pkt., 50c; 1/4 oz., 75c; oz., $2.00; 1/4 lb., $6.00; lb., $20.00.

Larkspur White Spire

A new dazzling pure white double Larkspur with an improved upright delphinium-like habit of growth. This is a welcome addition to the Larkspur, as the long, straight, upright stems makes it superior to all other white Larkspur as a cut flower. Pkt., 25c; Trade Pkt., 50c; 1/4 oz., $1.50; oz., $4.50.

Larkspur Exquisite Pink Improved

A new strain, true Exquisite Pink in color with a wonderful improved new form. An upright habit similar to delphinium and best of all, this new improved strain comes practically 100 per cent true. The color is a beautiful soft pink shaded salmon. Pkt., 25c; Trade Pkt., 50c; 1/4 oz., 75c; oz., $2.00.

Larkspur Empress Rose

A tall, branching, double, stock flowered Larkspur. Empress Rose is a rich salmon pink, ever-blooming, super-branching, six feet tall, and coming 100 per cent true. The long trusses have mammoth florets well balanced on 4-foot stems. As a cut flower Empress Rose is unsurpassed for color, keeping qualities, branching habit, and under artificial light it is gorgeous. Pkt., 25c; Trade Pkt., 50c; 1/4 oz., 75c; oz., $2.00.

Godetia, Dwarf Double Azalea Flowered

Last season we recommended Dwarf Double Azalea-flowered Carminea for growing in pots in greenhouses. We understand this has met with favor, and have added two new shades which we think are worthy of trying out, especially the Cornelia.

Carminea, pink, blotched center. Pkt., 15c; Trade Pkt., 50c; 1/4 oz., $1.00; oz., $3.00.

Cornelia, delicate salmon. Pkt., 25c; Trade Pkt., 50c; 1/4 oz., $2.00.

Brilliant, dark crimson. Pkt., 15c; Trade Pkt., 50c; 1/4 oz., $1.00; oz., $3.00.

Calendula Radio

This unique new flower is a recent new flower from Europe. The true Radio form is a mediumsized orange flower with quilled or comet petals, curled and twisted, borne on medium length stems. With the present demand for the curled and twisted form of flowers it should prove valuable both as an amateur gardener's novelty and as a florist's forcing variety. Pkt., 10c; Trade Pkt., 20c; 1/4 oz., 50c; oz., $2.00.

New Calendula Campfire (Sensation)

This striking novelty was introduced last year as the best forcing Calendula on the market and was given a thorough try-out to the entire satisfaction of all our customers. This variety won immediate favor on account of its vigorous growth, the flowers being borne on stout stems and needing little disbudding. The blooms are flat and undoubtedly larger than any type previously introduced. Pkt., 10c; Trade Pkt., 20c; 1/4 oz., 50c; oz., $2.00.
Petunia Dwarf Giants of California

By far the best strain of Giant Petunia for pot culture. It is the most compact Giant Petunia with the largest and best formed flowers of any dwarf type of Petunia on the market today. As in the above illustration, when in full bloom the plant shows nothing but large, colorful flowers with open throats well marked and veined. Wherever this strain has been tested it has proved all that we say of it. Pkt., 25c; Trade Pkt., 75c; 1/64 oz., $1.00; 1/32 oz., $1.50; 1/16 oz., $3.00.

Giant Double Petunias Pride of Los Angeles

Giant double flowers, pink, pink and white, and deep rose shades. Will produce 70 per cent double or semi-double flowers four to six inches in diameter of the peony type, heavily fringed; very compact grower. 1000 seeds, $1.50; 5000 seeds, $5.00; oz., $15.00.

Giant Petunia Shaw’s Pride

New, 1929; true salmon pink of the peony type, flowers four inches in diameter; will produce 50% double flowers. This is a marvelous new color in petunias, and one of the prettiest yet produced. A of it. Pkt., 50c; Trade Pkt., $1.00; 1/64 oz., $1.50; 1/32 oz., $2.50; 1/16 oz., $4.00. 1000 Seeds $3.00.

Stocks Double Giant Excelsior
(Improved Column Type)

The large individual flowers are well placed on straight vigorous stems and when well grown attain a height of three feet or more. This vigorous stem grows directly from the ground without any laterals. Therefore, we would consider it a very economical flower to grow in greenhouses where the space is limited and valuable. We offer the following colors: Crimson, White, Dark Blue, Light Blue, Rose, and Morris & Snow Florist Formula Mixture. Pkt., 50c; Trade Pkt., $1.00; ¼ oz., $5.00; oz., $15.00.

Scabiosa Columbaria

This is a South African form of the European Scabiosa and although reminiscent of Caucasica, it is a distinct type. There is a decided place on the perennial list, as well as on the florists’ cut flower list. It can be briefly described as a hardy, low-growing perennial with fine, light green foliage, some of the flowers measuring from two to two and one-half inches across, with short, compact petals borne on long, slender but strong stems. Columbaria has proved a valuable florists’ cut flower, and a welcome addition to the perennial list, especially the pink shade, which is a new color in Perennial Scabiosa. We offer this in two colors coming true from seed. Pkt., 25c; Trade Pkt., 50c; ¼ oz., $1.00; oz., $4.00.

New Early Flowering Spencer Sweet Peas

Red Cross—A glowing poppy scarlet, synonymous with the late variety Hawlmark Scarlet. The flowers are of great size, and a perfect Spencer form, carrying three and four blooms on extra long stems. It is a free grower, profuse bloomer, and well adapted to the winter months. An improvement over all scarlet sorts. Oz., $1.50; ¼ lb., $4.50; lb., $15.00.

Blaze—A glistening fiery orange of great substance. The flowers are large and bold, well placed on long, stout stems, which carry threes and fours. This blazing orange is a distinct improvement to the early flowering group, and will become a great favorite with florists. Oz., $1.50; ¼ lb., $4.50; lb., $15.00.

Blue Bonnet—Color, an extra large fine deep blue. The color is evenly distributed, with not the slightest trace of mauve. By careful comparison the color and vigor of Blue Bonnet are far superior to any other blue on the market. It has very long stems with four blossoms to a stem. ¼ oz., $1.50; oz., $4.50.

Zinnia Pumila Picotee Delight

Delight can be classed as a Pumila type, very floriferous and of compact growth. The petals of the flowers are ruffled and curled, giving a light and dainty appearance. In addition each petal is beautifully picoted, making it a most striking flower. The assortment of colors is most suitable for florists. It includes salmon shades, cream, buff, biscuit, golden yellow and lavender. In mixed colors only. Pkt., 25c; Trade Pkt., 45c; ⅛ oz., $1.25; oz., $4.00.

Zinnia Dahlia Flowered Dawn

A new addition to the Dahlia Flowered type. The color is between Golden State and Canary Bird. The flowers are enormous size and perfect type. Pkt., 25c; Trade Pkt., 50c; ¼ oz., $1.00; oz., $3.50.

Zinnia Dahlia Flowered Youth

Youth is a beautiful color of light rose. The flowers are well formed, true Dahlia Flowered type grown on the usual robust Dahlia Flowered plant. In fact, it is a very vigorous and free flowering variety. Youth is three or four shades lighter than our popular Exquisite. Pkt., 25c; Trade Pkt., 50c; ⅛ oz., $1.00; oz., $4.00.

Carnation Englemans

A wonderful strain very popular on the London Market on account of their size, fragrance and varied colors. Over 80 per cent come double from seed. 100 seeds, $1.00; 1000 seeds, $7.50.

ASTERS—A.

King or Needle Type, 18 to 24 in. Owing to the wonderful keeping and shipping qualities which permit the flowers to be shipped in refrigerator cars from Southern California to far Eastern points, this group of Asters is the most popular with Southern California growers. The flowers are very large and placed on long strong stems.

M. & S. KING ASTER

American Beauty—Early—2 to 3 ft.

These Asters are of the incurved Chrysanthemum type and bloom about the same time as the Crego and Am. Branching, being a late Aster as compared with the Early Express or Queen of the Market.

American Beauty—Late.

This type is exactly the same as the American Beauty Early but blooms 6 days or two weeks later. Colors and prices are the same.

Giants of California—

(Originator's Strain)

These new Asters represent an entirely new class which are larger than the Crego or the Beauty and combine the artistic appearance of the former with the robust growth and long stems of the latter. Unsurpassed for cutting.

**American Branching**

This well known Aster sometimes known as Vick’s Branching has always been a favorite among commercial growers. Our strain is the best obtainable. 2 ½ to 3 ft. in height.

Hybrids. Mid-blue shades
.25 .50 1.20 3.60
Hybrids. Pastel shades
.25 .50 1.20 3.60
The above segregation has taken many years of work on the part of a prominent California Specialist and has proven of great value.

CYNOGLOSSUM—Amabile—A.
(Chinese Forget-Me-Not)
A fine cut flower of true Forget-Me-Not blue, grows 18 to 24 in. high and can be grown in greenhouses or outside
.10 .15 .20 .50
CYPRESS VINE
(Ipomea Quamoclit)
Very effective, fast growing annual climber. White, scarlet or mixed
.10 .15 .25 .50
DAHLIA
Easily grown from seed and will bloom the first year. Many wonderful new varieties can be developed. We take pleasure in offering seed from famed varieties, which were hand pollinated by one of the oldest and largest Dahlia growers on the Pacific Coast. This seed will produce better seedlings than that offered by some Dahlia specialists at five times the price.
Seventeen prizes were won in 1929 from this seed.
Paeony Type—10 seeds, 25c; 100 seeds, $2.00
Decorative Type—10 seeds, 25c; 100 seeds, $2.00

### Retail Trade

#### PANSIES

#### Pancy Mixtures
We fully realize the importance of giving our customers, most of whom are professional pansy growers, only the best qualities of pansies. The stock we offer come from growers who have given their life to the study of pansy growing and therefore are the best.

Knowing how fashions are constantly changing and making the demand for colors different, we have kept pace with the times and can assure you our mixtures are right in accord with the present fashions, giving you a good proportion of the bright colors. As to size of the flowers and sturdiness of the plant they cannot be surpassed.

**Morris & Snow Los Angeles Market Mixture**

This mixture has been developed by us especially to fill the demand of the Los Angeles Market trade for a mixture of the brightest, jazziest colors. This mixture contains all of the lovely and delicate orchid shades, too, but the preponderance is of the bright colors. The vigor of the plants is unusual and they are very stocky from the early stages. Recommended for outside or greenhouse culture...

**Roggi Giants**

#### PANSIES—OREGON GIANTS

These new Swiss Giant strain produce flowers of enormous size—three inches and over in diameter, perfectly round in form and borne on sturdy stems well above the luxuriant foliage.

The color combinations are very rare and entirely new—salmon, pinks, red with mostly three blotched flowers.

**New Giant Orchid Flowered Mixture**

This is a larger strain than the regular orchid flowered; coming in bronze, terra cotta, delicate orchid shades, pink and lavender colors. A great florist strain.

**Morris & Snows' Oregon Giants**

A splendid mixture of well-balanced color combinations and great size. This mixture has been a standard with us for many years...

Morris & Snow Florist Formula Mixture.

Each of the above: ¼ lb., $4.50; lb., $15.00.

SALVIA—Continued

SALVIA—Continued

SCABIOSA—PEACH BLOSSOM

SCABIOSA (Mourning Bride)

Large Flowering Double—A.

Peach Blossom
Plum Violet
Shasta—White

Each of the above: ¼ lb., $1.50; lb., $5.00.

Columbiana Anthemifolia—P.

This is a South African form of the European Scabiosa and although reminiscent of the Caucasica is a distinct type. It is a hardy low-growing perennial with fine light green foliage. The flowers measure 2 to 2½ inches in diameter with short, compact petals borne on long slender stems. It has rapidly gained popularity as a cut flower on the market, especially the pink shade, which is a new one in perennial Scabiosa. Scabiosa Columbiana. Pink or Lavender

Each of the above: ¼ lb., $22.50; lb., $60.00.

Caucasica—P.

This well known perennial Scabiosa which is playing such an important part in florists' decorations. Lilac, ½ lb., $15.00; lb., $45.00

Caucasica Giant Hybrids, Isaac House Strain—P.

Caucasica Hybrids are a great improvement over the Caucasica, being more vigorous with larger and longer stems and larger and heavier petals which are ruffled and slightly frilled on the edges. In this Hybrid you will find colors ranging from white to the darkest blue, but the predominating colors are a delicate lilac and mauve. Is bound to supersede all other strains both for outside culture as well as under glass. ¼ lb., $22.50; lb., $60.00.

Each of the above: ¼ lb., $2.40; lb., $12.00.

Morris & Snow Seed Co., Inc., Los Angeles

The well known perennial Scabiosa which is playing such an important part in florists' decorations. Lilac, ¼ lb., $15.00; lb., $45.00

Caucasica Giant Hybrids, Isaac House Strain—P.

Each of the above: ¼ lb., $2.40; lb., $12.00.
STATICE (Everlasting)
Southern California grows many acres of the Statice which are used so much in making Everlasting Wreaths, Baskets, etc. From seed the Statice, with the exception of the Perezi or Sea Lavender, are very variable and they have to be grown at distances apart so they will not cross.

We are growing our seed in different sections so there is little likelihood of this happening and our stock comes very true from seed. Statice flowers can be used either fresh or dried.

**Statice**

**EARLY SWEET PEAS—WHITE ROSE**

### SWEET PEAS

#### Early or Winter Flowering

**Spencer**

These Early Sweet Peas are an all year round crop in Southern California where they have absolutely displaced the Late Flowering Varieties. In any other climate than the Southern States and Southern California we would recommend the Late Spencer Varieties for your main outside summer crop. In greenhouses of course the early varieties are the most used.

We sell such large quantities to the growers in this section, where the acreages are large, that we have been able to place a very advantageous contract for growing under our constant supervision these varieties most popular with us; hence our remarkably low prices on some of these.

We will guarantee that our Sweet Peas are as good as those you are paying twice the price at present. A trial will convince you.

- Single Mixed—P., 24 in. .10 .20 .50
- Double Mixed—P., 24 in. .10 .20 .50

**WILD FLOWER MIXTURE—**
A choice mixture of a great variety of native California wild flowers. 1/4 lb., $1.25; lb., $4.00.

**WILD GARDEN MIXTURE**
A splendid mixture containing a great variety of tame as well as wild annuals. You can transform your vacant lots into charming spots with this mixture. 1/4 lb., 80c; lb., $2.50.

**California Poppy**
Morris & Snow Pedigreed Zinnias

The most popular annual in the gardening world. They are suitable for florists' use for home gardens and for the household decorations. Their easy culture and long blooming season make them a very profitable investment for commercial growers.

Dahlia Flowered—Bodger’s Improved Strain
This type was introduced by the late Honorable John Bodger of Los Angeles in 1915 revolutionizing Zinnias which up to that time had held a lowly stand among garden annuals and raised them to the highest pinnacle of popularity amongst flowers.

Buttercup—An immense, deep, creamy yellow. Very desirable flower.

Canary Bird—A delicate shade of primrose, very large and holds its color well until out of bloom.

Crimson Monarch—By far the largest and best of the red shades.

Dream—A fine, deep lavender, turning to purple (mellow purple), a new desirable shade in Zinnias.

Exquisite—Color, light rose with center a deep rose. (Tyrian Rose.)

Giant Attraction—A distinct shade of brick red (Spectrum Red), which carries its color well from the bud, and forms into an immense ball of color when in full bloom.

Golden State—A very rich orange-yellow (Cadmium). Yellow in the bud, turning to an attractive orange when in full bloom.

Illumination—Similar to Exquisite, but a striking self color of deep rose. (Tyrian Rose.)

Meteor—A rich glowing deep red (Sphaler Red) and the darkest of all the red shades. Fine form, with good depths of petals. Very large.

Old Rose—This adequately described by its name, as this is of the real old rose shade.

Oriole—An immense orange and gold bicolor, changing slightly as it ages, but at all times worthy of the beautiful bird for which it is named.

Polar Bear—A very large, pure white, the best white yet seen in Zinnias.

Sensation Flower—A large, beautiful, bright scarlet, with a beautiful blending of orange throughout the petals. This is not a bicolor.

Morris & Snow Florist Formula Mixture—combining all the best florist colors.

Prices: Retail Pkt., 20c; Trade Pkt., 35c; ½ oz., 50c; oz., $1.00; ½ lb., $2.00; lb., $20.00.

Dahlia Flowered Mixed—Yield Run
Retail Pkt., 10c; Trade Pkt., 20c; ½ oz., 40c; oz., $1.20; ¼ lb., $4.00; lb., $12.00.

California Giants (Giant Mammoth)—The great advantage of this type is that the very large flowers are of enormous size and flat, getting away from the conical type of the Giants and eliminating the stiffness that has been so objectionable in Zinnias in the past. The flowers from the time they open are attractive, making them a good cut flower from the early bud until they are in full bloom. They are twice the size of the Giants.

Cerise Queen

Enchantress (Tyrian Rose)

Lemon Queen

Miss Wilmot (Soft Pink)

Purity

Rose Queen

Scarlet Gem

Morris & Snow Florist Formula Mixture
Retail Pkt., 15c; Trade Pkt., 25c; ½ oz., 50c; oz., $1.75; ¼ lb., $5.00; lb., $15.00.

Double Giants (Grandiflora Robusta)
There have been great improvements made in this type both as to color and size. The individual flowers often measuring 5 inches across. We can offer the following colors:

Apricot Orange

White

Blood Red

Bright Rose

Buttercup

Burnt Orange

Crimson

Grandiflora Robusta

Lavender

Cream

Orange

Pedigreed Tree and Shrub Seeds

ACACIA—BAILEYANA

Baileyana (Silver Wattle)  
Grey green foliage. Leaves grayish green, yellow flowers. 

Cultiflorus (Knife Leaved Acacia), 15 ft. 
Leaves grayish green, yellow flowers. 

Dealbata (Silver Wattle), 30 ft. 
Lacy leaves. 

Decurrens—40 ft. 
Very dark green leaves. 

Floribunda—25 ft. 
Leaves very long, yellow flowers. 

Jubinissin (Albizia) 
Lophansa, 60 ft. 
Pink flowers, foliage. 

Latifolia—10 ft. 
Broad leaf, yellow flowers. 

Lopantra (Albizia Lopantra), 45 ft. 
Crested wattle, rapid grower. 

Melanoxylin (Blackwood), 80 ft. 
Small yellow flowers, blooms in March, good for parkways. 

Mollissima—25 ft. 
Green fernlike leaves, yellow flowers. 

Podalyraefolia—10 ft. 
Shrub small, round leaves, grayish green, yellow flowers. 

Zycnantha (Golden Wattle), 40 ft. 

Salix—Weeping habit, 20 ft. 

Verticillata—Small tree, needle like leaves, yellow flowers. 

ASPARAGUS

Plumosus and Sprengeri—See flower seeds.

ARAUCARIA EXCELSA

Imbricata 
Bidwilli 
Order in Jan. new seed in March. Price subject to crop.

ARUBUTUS

Uneedo (Strawberry Tree), 15 ft. Very ornamental, white flowers. Fruits resemble strawberries. 

AUGUSTA

Japonica (Gold Dust Shrub) 
Large variegated leaves, purple flowers, 10 ft. 

ARALIA

Sieboldi (Fatsia Japonica) 
Papyrifera (Rice Paper Plant) 
Large leaves. 

BAUHINIA

Acuminata—White flowers. 100 seeds, $1.00. 
Purpurea—Purple and white flowers. 100 seeds, $1.00. 

BENTHAMIA

Fragifera (Cornus Capitata) 
(Evergreen Dogwood) 

BERBERIS

Aquifolium (Oregon Grape) 
Holly like shrub. 

Darwinii—4 ft. 
Small leaves and drooping habit. 

CALISTEMON

Rigidus (Bottle Brush) 
Shrub of drooping habit with red flowers. 

CAMPHORA

Officinalis (Camphor Tree) 
30 ft., Ornamental. 

CASUARINA

Stricta (She Oak), 60 ft. 

CASSIA

Tomentosa—10 ft. 
Shrub, large yellow flowers. 

Artemisiodes (Fine Leaved) 

CERANODIUS

Speciosa (Hardy Catalpa), 50 ft. 
Large leaves, white flowers. Deciduous. 

CEDRUS

Deodora (Himalayan Cedar) 

CATALPA

Speciosa (Hardy Catalpa), 50 ft. 

CEMERONIA

Spinosa (California Lilac) 
Shrub, fragrant, light blue flowers, light green foliage. 

Arborescens—Shrub, Blue Flowers, dark foliage. 

CERATONIA

Siliqua (Carob Tree), 30 ft. 

CERESUS

Lustrinales (Portugal Laurel) 
Large shrub with large, green glossy foliage. 

Laurocerasus (English Laurel) 
10 ft. 

CHORIZEMA

Hilicifolium—Shrub, 3 ft. Holly shaped leaves. Flowers, orange pea shape, fine in basket work. 100 seeds, 25c.

Insecticides and Fungicides

For all insect pests and fungous diseases.

Insecticides that are poisonous are not mailable and must be sent by express or freight. Those that may be sent by Parcel Post are marked mailable. All prices in this department, unless otherwise specified are F. O. B. Los Angeles.

ALL PRICES SUBJECT TO CHANGE WITHOUT NOTICE

ARSENATE OF CALCIUM—The Antrol system is one of the best ways of controlling ants. It is the best to use on tender shoots. (Not Mailable.) 1-oz. bottle, 35c; 1/2-lb. bottle, $1.00; 2-lb. can, $3.00; 1-lb. can, $11.25; 3-lb. can, $18.75 each; 1 case (10 cans), $10.35 each.

ANTROL—The Antrol system is one of the best ways of controlling ants. It is the best to use on tender shoots. (Not Mailable.) 1-oz. bottle, 35c; 1/2-lb. bottle, $1.00; 2-lb. can, $3.00; 1-lb. can, $11.25; 3-lb. can, $18.75 each; 1 case (10 cans), $10.35 each.

BLUESTONE—For use in making Bordeaux Mixture. Also used for preventing smut on wheat and barley. (Not Mailable.) 1 lb. to 50 lbs., 15c per lb.; 50 lbs. and over 12c per lb.

Bordeaux Mixture—The best and most generally used spray for blight, mildew, curled leaf and many other fungus diseases. (Not Mailable.) 1-lb. can, 45c; 4-lb. pkg., 80c.

CARBON BI-SULPHIDE—For the control of weevil in grain. Also used for killing rodents in their burrows. (Not Mailable.) Pts., 40c; qts., 60c; gal., $2.00.

CYANOGAS—Calcium Cyanide or Cyanogas furnishes a convenient source of hydrocyanic gas for greenhouse fumigation. It is safe, cheap and positively effective remedy against white flies, aphids and other greenhouse pests. It can also be used for exterminating rodents, such as rats, gophers, squirrels, and many other pests. (Not Mailable.) A dust or G. granular. 1-lb. can, 60c; 5-lb. can, $2.00.

LIME SULPHUR—Dry Lime Sulphur is used for dormant spraying in fall and winter for the control of scale, leaf curl, peach blight, twig borer. Dry Lime Sulphur is more economical to use than the liquid as only the water has been extracted. (Mailable.) 1 lb., 35c; 5 lbs., $1.25; 10 lbs., $2.25.

LIME HYDRATED—Mixed with Arsenate of Lead for bulk. 10 parts lime to 1 part arsenate of lead; also used for acid soil. See Agricultural Lime under fertilizer. (Mailable.) 10 lbs., 25c; 50-lbs. bag, $1.00.

NICO DUST—Nico Dust is a dry powder insecticide killing by fumes as well as by contact. The principal ingredient is Nicotine Sulphate the well known remedy for sucking insects. Nico Dust should be applied directly to the plant with a hand duster. (Not Mailable.)

DESTRUXOL—A combination spray for destroying sucking and chewing insects, also effective for the control of mildew. It contains nicotine sulphate and cyanide which gives off fumes that reach the insect life on the under side of leaves. (Not Mailable.) 1-oz. bottle, 40c; 2-oz. bottle, 65c; 4-oz. bottle, 90c; 8-oz. bottle, $1.40; 1 pt., $2.00; 1 qt., $3.75.

EVERGREEN SPRAY—A highly effective non-poisonous insecticide for aphids, thrips, mealy bug, white fly, cabbage worm, and many other insects, and is harmless to man, livestock, pets and birds. (Mailable.) 15-oz. bottle, 35c; 6-oz. bottle, $1.00; 16-oz. bottle, $2.00; 32-oz. (1 qt.) bottle, $3.50; 1-gal. bottle, $13.00.

FLY SPRAY—Best Fly Spray is non-poisonous, has no odor and will not stain anything. Will exterminate the house fly, moth, mosquito, bedbug, ant, roach and is a general insect spray. Do not spray on foliage. (Mailable.) 1 qt., $1.00; 2-qts., $1.75; 1 gal., $3.00.

Gopher Poison—El-Roy gopher and squirrel poison is a first-class, speedy and effective poison for poisoning all rodents. It is made from large, plump grains and raisins that have been coated with strychnine and sweetened with anise oil. (Not Mailable.) 1/2-lb. pkg., 35c; 1-lb. pkg., 60c; 2-lb. pkg., $1.00.

LIME SULPHUR—Dry Lime Sulphur is used for dormant spraying in fall and winter for the control of scale, leaf curl, peach blight, twig borer. Dry Lime Sulphur is more economical to use than the liquid as only the water has been extracted. (Mailable.) 1 lb., 35c; 5 lbs., $1.25; 10 lbs., $2.25.

LIME HYDRATED—Mixed with Arsenate of Lead for bulk, 10 parts lime to 1 part arsenate of lead; also used for acid soil. See Agricultural Lime under fertilizer. (Mailable.) 10 lbs., 25c; 50-lbs. bag, $1.00.

NICO DUST—Nico Dust is a dry powder insecticide killing by fumes as well as by contact. The principal ingredient is Nicotine Sulphate the well known remedy for sucking insects. Nico Dust should be applied directly to the plant with a hand duster. (Not Mailable.)

Nico Dust
No. 6 (6% Black Leaf "40") 5 lbs., $1.45; 25 lbs., $4.75; 50 lbs., $8.50; 100 lbs., $15.50.
No. 8 (6% Black Leaf "40") 5 lbs., $1.60; 25 lbs., $5.50; 50 lbs., $10.25; 100 lbs., $19.00.
No. 10 (10% Black Leaf "40") 5 lbs., $1.90; 25 lbs., $6.25; 50 lbs., $12.00; 100 lbs., $22.00.

NICO FUME (Liquid)—A modern insecticide for vaporizing and spraying. Contains 40% nicotine. It is used mostly for painting on hot steam pipes. 4-lb. can, $7.00; 8-lb. can, $13.00. (Not Mailable.)
**NICO FUME TOBACCO POWDER**—This is our best seller for fumigating greenhouses. It lights quickly, burns evenly, and will not go out. There is no waste as every particle is consumed. Protects greenhouses against insect pests such as aphids, white fly, thrip, etc. 5-lb. can, $2.75; 10-lb. can, $7.50. (Not Mailable.)

**PARIS GREEN**—Of a rich emerald green color and of fine fluffy character. Contains 55 per cent arsenious oxide. Kills caterpillars, potato bugs and all insects which chew the leaves. (Not Mailable.) 1-lb. pkg., 50c; 5-lb. can, $2.00.

**POISON BARLEY**—Is the best grade of whole barley with a coating of strichnyne. It is the cheapest way to buy a poison for squirrels and gophers. (Not Mailable.) 1-qt. pkg., (2 lbs.), 50c; 5-lb. pkg., $1.50; 1-lb. pkg, 50c; 10-lb. pkg, 100c.

**PRUNING COMPOUND**—For covering fresh cuts and bruises on trees. Will aid nature in healing wounds without retarding growth of tree. (Mailable.) 1-qt. can, 60c; 1-gal. can, $2.50.

**QUA SUL**—A sulphur carbon combination. A good remedy for mildew and fungoid diseases. (Mailable.) 8 oz., 50c; 1 qt., $1.25; 1 gal, $4.50.

**SEMESAN**—To grow flower seeds successfully, treat your seed with Semesan. Besides generally increasing germination of seeds, it prevents rotting of seeds in ground and Semesan treated seeds produce stronger plants which of course gives you better yields of finer flowers. Semesan will also prevent or control the “Brown Patch” of lawns, the “Damping-off” of seedlings and cuttings and certain soil diseases. (Not Mailable.) 2-oz. can, 50c; 8-oz. can, $1.60; 1-lb. can, $2.75; 5-lb. can, $13.00; 25-lb. can, $56.25.

**SEMESAN BEL**—Unsurpassed for the treatment of gladiolli and other bulbs. It is usually used as an instantaneous dip or as a dry powder. (Not Mailable.) 4-oz. can, 50c; 1-qt. can, $1.75; 5-lb. can, $8.00.

**SNAIL POISON**—End-O-Pest is a ready prepared meal that you simply broadcast on the ground, under the vegetation. The pests eat the meal and are quickly destroyed. End-O-Pest will not deteriorate from rain or sprinkling and is not injurious to vegetation. These features distinguish it from ordinary small poisons, and make End-O-Pest popular with professional gardeners and nursery men. Prices: 1-lb. pkg., 35c; 3-lb. pkg., 75c; 10-lb. pkg., $1.75; 16-lb. bag, $2.25; 50-lb. sack, $6.00; 100-lbs., $9.00.

**SOAP-FIsh Oil**—A fish oil soap is effective in destroying many sucking insects and lice on plants, trees, ferns, etc. It is also used in combination with Black Leaf “40” as a spreading and adhesive agent. (Mailable.) 1-lb. pkg., 30c; 50-lb. can, (solid), $7.50.

**SULPHUR—Anchor Brand**—Mildew is more easily prevented than cured and there is no better preventative than Anchor Brand Sulphur. The fine snowflake like particles of the Anchor Brand are condensed from a vapor and are not ground. This sulphur is also very fine for the control of red spider, and when dusted on the ground beneath the plants it combines with the oxygen in the air and creates a gaseous compound. This gas or vapor rises, passes through the foliage of the plants, and destroys spores. (Mailable.) 1 lb., 10c; 2 lbs., 25c; 100-lb. sack, $4.95.

**SULPHUR, MORRIS AND SNOW DUSTING SULPHUR**—A very high-grade imported sulphur prepared specially for dusting purposes. This is not a cheap sulphur, but a good sulphur at a low price. Put up in 100-lb. bags at $4.00 per bag.

**Sulphur, Diamond S. Brand**—This sulphur is used mostly for preparing a lime-sulphur solution, for which purpose it is very satisfactory. Diamond S. is packed 100 lbs. to the sack and the price is $3.50 per sack.

**Sulphur, Poppy Brand Dusting Sulphur**—A raw sulphur that has been ground to a very fine dust. The fine particles of this sulphur adhere very close on the foliage of plants and are very economical sulphur to use. Unsurpassed for the control of mildew. $4.40 per 100-lb. sack.

**Sulphur, Toro Brand—Agriculture Sulphur Compound.** The application of sulphur to the soil to increase crop production is now a proven and accepted fact. It loosens hard cement like soil, is active in controlling fungus, and is generally beneficial to all crops. 100-lb. sack, $3.65.

**TOBACCO DUST (Gold Leaf)**—A very fine grade of Tobacco Dust containing 15 per cent nicotine. Used for green and black aphids, flea beetles, etc. Splendid fertilizer and preventative for insects in the garden and around roots. (Mailable.) 1-lb. pkg., 15c; 5-lb. pkg., 50c; 10 lbs. $1.10; 100 lbs., $7.50.

**VOLCK**—For the garden, greenhouse, florist and nurseryman. A powerful insecticide for the control of meaty bugs, scale insects, white flies, rust mites, red spiders and fungus diseases. Rose mildew is also prevented by spraying with Volck. It can be used very successfully in combination with Black Leaf “40” for the control of aphids and thrips. Volck is unsurpassed in ridding plants from the ravages of the “Brown Patch” of lawns, the “Damping-off” of seedlings and cuttings and certain soil diseases. (Not Mailable.) 1 lb., 10c; 2 lbs., 25c; 100-lbs., $9.00.

**WEED KILLERS**

**Atlacide**—A non-poisonous dust for killing all types of weeds and grass in paths, gutters, tennis courts, driveways, etc. One pound sufficient to kill one hundred square feet of weeds. Atlacide can be used as a powder and sprinkled on plants or it can be diluted and sprayed. (Mailable.) 1 lb., can, 50c; 3/4-lb. can, $1.50.

**Sheps Plant Spray**—Kills and controls both sucking and chewing insects. Quickly and easily prepared, and is harmless to both plants and animals. (Mailable.) 2-qt. bottle, 35c; 1/2-qt. bottle, 75c; 1-qt. bottle, $1.25; 1-qt. can, $2.00; 1-gal. can, $6.35.

**K. M. G.**—Kills morning glory and other weeds. A liquid chemical spray which is diluted and sprayed on the plant. Will not injure the soil. (Not mailable.)
We carry a full line of Nursery and Florists supplies. If you will write us about anything you do not find here we shall gladly submit quotations, as well as any information you may desire. All prices in this department unless otherwise stated are F. O. B. Los Angeles, Calif.

**PRICES SUBJECT TO CHANGE WITHOUT NOTICE**

**BUDDING CLOTH** — A prepared cloth used for wrapping up new buds. It comes in two sizes, ¼ yd., 40c; 1 yd., 75c.

**DUSTERS**

- **American Beauty** — A very powerful hand duster. Has a large, powerful bellows that throws dust to the top of twenty-five foot trees. Dusts truck crops at an average walking speed, and dusts the under side of leaves. Has a spiral agitator that crushes and grinds the dust and feeds directly into the moving air blast; does not choke or clog. Has an efficient regulator for discharge control. Each, $18.00.

**GREENHOUSE HOSE** — A brand of hose manufactured especially for greenhouse use. The inner tube is made of best quality rubber, which is very strong. The jacket of the mixing duct is mixed with 25 foot lengths or over. ¼-inch in 25, 50 or 100-foot lengths, prices on application.

**Hose and Accessories**

- **U. S. Mogul** — A selected grade of moulded non-kinkable hose. It is made with a smooth cover to prevent catching so much mud in dragging over wet ground. It is made of very good rubber and guaranteed against defects during a season. This hose can be supplied cut in any length, coupling included with 25-foot lengths or over. ¾-inch in 25, 50 or 100-foot lengths, prices on application.

- **Ruhmera** — Corrugated, seamless brass hose, will not rust. ¾-inch, ¾-inch, 10c pair.

- **Cast Brass** — Made of very heavy cast brass; will not bend or kink even in most severe usage. ¼-inch, ¼-inch, ¼-inch, ¼-inch, ¼-inch sizes. Male ends, 45c each; female ends, 55c each; pair, 90c.

- **Perfect Clipping** — Brass tube with clamping jaws which clamp into hole, making a tight and inseparable joint. ½-inch, ¼-inch, ¼-inch, ¼-inch, ¼-inch sizes. Each, $1.10 per doz.

- **Wooden Washers** — Something you should have handy at all times. Made of live rubber that will withstand a very heavy pressure. ½-inch standard hose size, 5c per doz.; 40c per lb.

**KNIVES**

- The knives we offer are made of the best grade of steel and are especially designed for gardeners and nurserymen's use.

- **Budding Knife** — 2-inch, non-closing blade, made from the best imported steel. Square beechwood handle. The most popular knife used for budding and propagating work among nurserymen. (See figure 15 in Ill.) 60c each; $6.00 per doz.

- **Grafting Knife** — 2½-inch, non-closing blade, glazed finish, square beechwood handle. (See figure 18 in Ill.) 60c each; $6.00 per doz.

- **Pruning Knife** — 3-inch extra heavy non-closing blade, glazed finish, oval beechwood handle. (See figure 17 in Ill.) 90c each.

**LABELS—POT AND TREE** We list only the painted labels as they are much more durable and the writing is not obliterated so easily by the elements.

- **Pot Labels**
  - Copper wire painted: 1000 to box  .30 2.70
  - Copper wire plain: 1000 to box  .25 2.35
  - Iron Wire plain: 1000 to box  .25 2.15
MOSS GREEN—For lining hanging baskets, putting around pots, and for general finishing. $4.25 per 1/2 bale; $8.00 per bale.

MOSS SPHAGNUM—Select stock put up in large burlap bales. Excellent for packing plants for shipment. $2.00 per bale. Write for price in large quantities.

PEAT MOSS (Imported)—Peat acts as a soil improver, as a source of additional nutrients, as a water holder, as a medium for propagation and for storage for bulbs and roots. It comes as a soft, brown colored material, dried and easy to handle. The germination of annuals and perennials is hastened and assured, both outdoors and in boxes in the nursery and hotbeds. After the seed is sown in rows or broadcast the only covering which is needed will be peat. Being a sterile medium, of high water-holding capacity and free of weeds, this covering is superior to soil. The fact that bacteria and parasitic fungi are rarely present in peat, the danger from damping off is reduced to a minimum. This is highly important, since a great many seedlings are lost in the early stages due to this trouble. In many instances peat is desirable as a mixture with the soil. In mixing with the soil, use it at the rate of one-fourth of the whole mixture, or if its use is to be limited to outdoor operations only, work in one inch into the top four inches of soil. The actual application will vary with the needs, but a mulch of one inch is preferable. An area 300 feet square can be covered one inch deep with one bale. Per bale, $4.00 (approximately 185 pounds).

MOSS HUMUS—(See Fertilizers).

PEANUT WEATHERPROOF—Just the thing you have been looking for. A waterproof pencil that will not fade or run. 10c each; $1.00 per doz.

PLANTING POTS—(Tar Paper)—The Expan paper pot is square and comes in different sizes for growing plants. Largely used for putting up young plants of vegetables and young trees. It has no bottom and should be set in a flat or box. When ready to plant outside put the plant and pot right in the ground so as not to retard the growth of the plant. The young plant will soon root out from the bottom. Price per 100 Price per 1000

- 2x2x3 8.75 3.50
- 2x2x4 1.00 4.25
- 2x2x6 1.25 5.75
- 3x3x4 1.25 6.25
- 3x3x6 1.50 8.25

RAFFIA—For tying plants, vegetables, grafts, flowers, etc. Will not cut the plant, has great strength and is not affected by outdoor exposure. Natural color only. Comes in braided hanks weighing from one to two pounds. 30c per lb. Bales of about 225 pounds, price on application.

SHEARS—PRUNING

Kunde No. 124—A well made single edge pruning shear. A medium priced shear for general use. 8-inch, $2.50; 9-inch, $3.00.

Kunde No. 135a—A powerful double-edge pruning shear. Has a narrow shape to the blades, making it possible to get in between the bushiest crown. Excellent for cutting dahlia tubers. 81/2-inch, $5.00.

Henchel Professional—Extra strong forged steel, polished blade and sides. Long double brass springs. Hatchet bolt. (See Fig. 8 in Ill.) Each, $6.00.

Henchel No. 23—Forged steel flower shear. Fully nickel plated. Our biggest selling medium priced shear. (See Fig. 3 in Ill.) $2.25; 81/2-inch, $2.50.

Sky Shear—A new type of shear made to last a lifetime. Has two sharp cutting blades that work scissor like to prevent bruising. The best propagating shear we have seen. Each, $7.50.

French—Made by A. Field & Co. Has a new coil type spring that does not tire the hand. 6-inch, $2.50; 61/2-inch, $3.00; 1-inch, $3.50.

Heinzerling No. 1091S—A cheap shear made for light pruning. 60c each.

Tree Pruners—Waters pattern. 6-foot, $1.90; 8-foot, $2.00; 10-foot, $2.35; 12-foot, $2.50.

Hedge Shears—Forged solid steel blades, offset shank, hardwood handles. (See Fig. 18 in Ill.) 6-inch, $1.50; 8-inch, $3.00; 10-inch, $3.50.

Lopping Shear—One of the best shears for heavy work made. Makes a cleaner cut and more closely than any lopping shear on the market. These have 22-inch handles. (See Fig. 14 in Ill.) $2.75 each.

SPRAY PUMPS

Misty Sprayer—A single action sprayer of heavy tin, made to fill calls for a low cost sprayer to use in gardens, plant houses and for applying stock dip, fly poisons, etc. This is not a cheap sprayer but a good sprayer, at a low price. 1/2-qt., 35c; 1-qt., 50c.

Trombone Sprayer No. 5—The Auto Spray No. 5 is a double acting, high pressure sprayer, generally acknowledged to be the most powerful sprayer of its type, which easily generates a pressure of over 200 pounds with very little effort. Each, $5.00.
Continuous Sprayer—We recommend this sprayer for use in the household, garden and greenhouse. Very little effort is required to operate this sprayer, and consequently does not tire your arm. This sprayer is made in four models, with one-quart capacity. Each No. 26A—Tin pump cylinder, tin container. $1.00. No. 26B—Tin pump cylinder, brass container. $1.25. No. 26C—Vinyl spray tip (entirely recommended). $1.50. No. 26AG—Brass pump cylinder, galvanized container. $1.50.

Auto-Sprayers—(Compressed Air)—The Auto-Sprayer is a durable, well-built machine. This sprayer, due to its ease of operation, is one of the most popular compressed air sprayers on the market. Made of heavy sheet brass or strong copper bearing galvanized steel sheet. Pump cylinder is one-piece seamless brass tube. The features of this sprayer are the screw lock, drain dry and non-drip spray nozzle.

Wheelbarrow Sprayer—Auto-Spray No. 30D. This sprayer has been designed to meet the demand which exists for an inexpensive wheelbarrow sprayer, and is suitable for handling all except liquid solutions. The galvanized tank is of 12-gallon capacity and it is equipped with 6 feet of ½-inch hose and 2 feet iron extension. Complete with truck and wheel. Each, $16.00.

SPRINKLERS—REVOLVING—Improved Santa Barbara Are made with two pipe arms in a bronze cast head which is mounted on a standpipe held upright in a well-shaped iron sled with base enough to hold the sprinkler from falling over when in operation. This sprinkler will revolve with as low as five pounds pressure and distribute the water evenly. Under good pressure it will wet a space 45 feet in diameter, ½-inch stand, ¾-inch hose connection, $5.50; ½-inch stand, ¾-inch hose connection, $6.50.

STAKES—BAMBOO—These are straight, light-weight but tough for staking up plants in the garden or greenhouse.

THERMOMETERS—Maximum and Minimum—These thermometers record with indexes, the temperature for any period, showing the maximum and minimum temperatures. They are used by successful orchardists, seedsmen and florists and other lines of business requiring a control on temperature. Each, $7.00.

Soil Thermometers—For hotbeds or soil. This type is used by nurserymen and growers of plants for controlling the temperature of their seed beds and will give them at all times the correct temperature of the soil. Each, $2.50.

TRAPS—GOPHER—Macabee. This is the most convenient gopher trap made. It is easy to set, small and can be extended far down into the hole. Each, 25c; dozen, $2.50.

Box Gopher Trap—This trap is used extensively by gardeners. It is easy to set and sure. Each, 25c; dozen, $2.75.

TROWELS

English Pattern Socket Trowel—Forged from one piece of solid crucible steel, highly polished; handle of selected hardwood. Straight shank or drop shank. Each, 75c. Cast Aluminum—This trowel is made of solid aluminum cast in one piece, making it very durable. Each, 85c.

Special Nurseryman Trowel—This trowel is made spe¬cifically by us for the nurseryman. The blade is 6 inches wide and 7 inches long. Very fine for lifting bulbs. Each, $1.75.

Garden Beauty Sets—For bench work in greenhouses. Consists of one 5-tine rake, one 3-inch hoe and one hand trowel. These all have a 12-inch handle and are very handy to use. Per set, $1.50.

WATERING POTS

Wotherspoon, French Style—We are headquarters for this watering can in Southern California. It is of the oval construction with a long spout and a curved brass handle which is perfectly balanced. Has size perforated, screw on top. Heads of the oval construction are not guaranteed. $3.50; 10-qt. size, $6.00.

TWISTS

Binder—Used by nurserymen for balling shrubs. Excellent for tying up plants. Comes in 5-lb. balls. Each, 90c.

Many End—Three-ply soft jute twine. 100 strands to a bundle. Preferred by market gardeners for tying bunches of flowers and vegetables. 30c per lb. In bales of 50 lbs. each, 28c per lb.

LAWN GRASSES

Prices are delivered your city

Australian Eye Grass—A very vigorous, quick growing lawn grass, but a little coarse. Should be sown very thick to produce a fine lawn. Per lb. 35c.

Bent Grass—Kentucky (Extra clean). The most popular grass for lawns. It is a dark green and of dense growing habit, making a beautiful turf. Per lb. 35c.

Bent Grass—Coos Co Creeping Bent. Being of fine texture and makes a strong, enduring turf. Can be planted alone or mixed with grass seed. Per lb. 60c.

Bermuda Grass—Makes a durable lawn and is also used to hold embankments. The seed requires 15 days of hot, dry weather to germinate. Per lb. 60c.

Pacific Lawn Mixture—A mixture of several deep green grasses which makes a thick, sturdy lawn, remaining good throughout both summer and winter. Per lb. 50c.

Poa Trivialis—Rough-Stalked Meadow Grass. An ideal perennial shade grass which is closely related to Kentucky Blue Grass but somewhat finer and softer. Very thick to produce a fine, even lawn. Can be planted alone or mixed with grass seed. Per lb. 60c.

White Clover—The best variety for lawn purposes, making a fine, even lawn. Can be planted alone or mixed with grass seed. Per lb. 60c.

Write for prices on larger quantities; these prices fluctuate and are not guaranteed.

FERTILIZERS

Prices are F. O. B. Los Angeles and subject to change without notice. Write us for quantity prices.

Morris & Snow Lawn Dressing—A scientifically prepared, complete fertilizer containing both chemical and organic ingredients. As some of the elements are available immediately and others are slower acting, a quick as well as long lasting result is obtained. Analysis: Ammonia, 5%; Phosphoric Acid, 10%; Potash, 2%. $3.75 per 100 lbs.

Steamed Bone Meal—An excellent fertilizer, very finely screened and thus quickly available. $5.50 per 100 lbs.

Pulverized Sheep Manure—This is a product from sheep seed and has been ground very fine. $1.50 per 100 lbs.

Blood Meal—This is the most complete form of animal nitrogen. Not quite so quick or available as nitrate of soda but more lasting. $5.00 per 100 lbs.

Fish Meal—Fish meal gives good color and quick growth to leaves and flowers. Very strong in nitrogen and phosphates. $4.50 per 100 lbs.

Gypsum—A good corrective for alkali soil. Very good for breaking up heavy soil. $1.50 per 100 lbs.

Pet Moss—See Nursery Supplies.

Nitrate of Soda—Chile Salt Petre. The most available form of nitrogen and therefore very quick acting. $1.50 per 100 lbs.

Vigor—Well balanced, complete fertilizer containing all elements necessary for plant growth. $6.00 per 100 lbs.

Owing to the constant changes in fertilizer prices it is impossible for us to give prices on fertilizers in quantities, but will be glad to furnish you quotations on your requirements.

MORRIS & SNOW SEED CO., INC. LOS ANGELES
COMMERCIAL FLORICULTURE, by Fritz Bahr. This book was written primarily for the benefit of what is called the retail Florist; that is, the man who grows a variety of flowers and then sells them at retail. It is a book which will take the place of all other cultural guides, particularly for those possessed of greenhouses, no matter how small they may be. Based on the author's experience of half a century it covers a general review of the florist's business, its opportunities and its responsibilities, together with all type of plant, shrub, tree and vine the reader is likely to handle. Cloth bound, $5.50 post paid.

THE NURSERY MANUAL, by L. H. Bailey. Outline all the details of successful nursery practice for both professional and amateur. One section describes general nursery method, especially propagation practices; the other section has a complete list of nursery plants, with the propagation and cultivation methods for each. Ill., 456 pp., $2.50 postpaid.

PLANT CULTURE, by Geo. W. Oliver and Alfred C. Hottes. For the commercial florist, gardener and nurseryman as well as the amateur student. Covers practically all the known plants cultivated in the garden and home grounds, together with those of the greenhouse and conservatory, and with still more thoroughness those grown for everyday commercial purposes. Many lesser known plants worthy of wider acquaintance are also included. The treatment includes a thorough elucidation of all the main points having to do with plant culture, such as building, grafting, soils, potting, watering, seedlings, hybridization and cultivation. Insect pests and plant diseases are taken care of in a special chapter. The contents is written in a language easily understood and to the point. Copiously illustrated and handily indexed; will serve as a pocket encyclopedia of plants. 444 pages. Cloth bound, $3.65 postpaid.

THE SMALL NURSERY, by Nelson Coon. Mr. Coon quotes the remarks of many well known nurserymen as to the advantage to the local florist, of having its own small nursery grounds and, because he is particularly interested in the direction of office work which far too many have but little knowledge of, Mr. Coon gives many excellent pointers on the establishing of an office, besides discussing the fundamentals of selling, publicity and cost accounting. He takes the guess out of what should be charged for a tree or the planting of it, for his table will enable anyone to decide what is fair, yet safe margin to work upon. Cloth bound, $1.65 postpaid.

STANDARDIZED PLANT NAMES. The first and only systematic, practical, comprehensive and authoritative index to the right names—both common and scientific—of plants known to horticulture. Designed to serve anyone and everyone who has to do with plants—whether amateur or professional—whether as gardener, student, plant lover, commercial florist, nurseryman or seedsman, grower, editor, writer, teacher, librarian, etc.—by supplying: A single accurate name for every plant. Standardized Plant Names is the product of the American Joint Committee on Horticultural Nomenclature. Cloth, 548 pages, 45,000 plant names, Standard Edition, $6.00. Pocket edition, India paper, flexible cover, $7.50. Interleaved edition, cloth, $7.50.

COMMERCIAL ROSE CULTURE, by Eber Holmes. There is no more important subject to the commercial grower than that of Roses. There will be found no better guide to their successful culture than is contained in Commercial Rose Culture, which embraces the author's experience extending over many years in the growing of Roses outdoors and under glass. 220 pages heavily illustrated. Price, cloth bound, $2.15 postpaid.

MANUAL OF GARDENING, by L. H. Bailey. This twelfth printing brings up-to-date the information on fruits, vegetables, and ornamental plants, their propagation and culture, protection from insects and diseases and general landscaping effects. Ill., 329 pp., $3.00.

THE BOOK OF BULBS, by F. F. Rockwell. Pictures and text take you into the garden and show the almost limitless possibilities that bulbs offer. Types are discussed and varieties appraised for their suitability to different uses. Complete information on growing and propagation. Ill., 272 pp., $3.00.

A SIMPLE GUIDE TO ROCK-GARDENING, by Sir J. L. Cotter. Tells briefly how to build rock, wall, and bog gardens, how to plant, what to plant, and how to care for and cultivate the plants. 126 pp., $1.00.

FERTILIZERS, by E. B. Voorhees, revised by S. B. Haskell. The growing importance of fertilizers in garden and field makes Mr. Haskell's revision timely for the use of the practical gardener and farmer in meeting present-day fertility problems. Ill., 310 pp., $2.50.

THE GARDENER, by L. H. Bailey. Simple directions for growing the common fruits, vegetables, and flowers in the garden and about the house. An accurate gardening guide, arranged alphabetically for handy reference. Ill., 266 pp., $2.00.

THE PRUNING MANUAL, by L. H. Bailey. Easily accessible information on the time and methods best adapted to the pruning of trees, shrubs, and vines. Ill., 400 pp., $2.50.

THE STANDARD CYCLOPEDIA OF HORTICULTURE, edited by L. H. Bailey. Complete with color pages and nearly 5,000 engravings, these volumes give complete information on kinds, characteristics, and methods of cultivation of all plants grown in North America. Ill., 3 vols., 3637 pp., $25.00.
